QUALITY POLICY

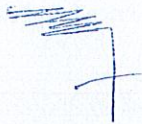

Jascon Engineering WLL provides best quality services across the country to customer as per their requirements, abiding regulations, and to the best of their satisfaction.

We are committed to ensure safe and secure services that fully meet the requirement of our esteemed customers, deliver them on time and every time defects free service with specific considerations to their safety and health aspects.

We will continually strive to remain competitive and deliver quality services and continually improve performance by involvement of every member through best practices.

We will continually upgrade our capabilities by enhancing our facilities, provide adequate trainings to our employees, build a dedicated work-force and develop a prevention-oriented work culture.

To achieve these goals, the management will ensure necessary resources for enabling us to meet the challenges of every-changing requirements of our customer.
