

	JASCON ENGINEERING WLL	Doc. No.	JAS-POL--OHS
	OHS (H&S) Management System Policy	DOI	07/01/2017
Revision		0	

JASCON ENGINEERING WLL recognizes that **Health and Safety/ Environmental** issues are fundamental to the contracting business and a proactive approach is required at our end. Our objective is to meet the requirements of all applicable legislation related to general contracting work and, wherever practicable, implements best practice through our certified Occupational Health and Safety Management System (OHSMS) which satisfies the requirements of **OHSAS 18001** and our overall business policy and strategy.

JASCON ENGINEERING WLL fully recognizes and believes that all harm is preventable and aim for zero fatality due to the operator activities carried on by us, we therefore commit to the following principles:

- a. Putting people to work carries a specific responsibility and accountability for safety & health and environment which will be visibly demonstrated.
- b. Encourage all employees and suppliers to take responsibility for working in a manner that minimizes harm to the health and safety of employees, contractors, visitors and members of the public.
- c. Assess the level of risk from all significant health and safety hazards, as far as reasonably practicable, ensure that they are eliminated or adequately controlled.
- d. Provide appropriate information, systems of communication, instruction, and training in health & safety to maintain and continuously improve the competence levels of all employees.
- e. Ensure full compliance with applicable legal requirements related to our Health & Safety processes and corporate business strategies; these will be regarded as minimum standards of achievement.
- f. Our Company is committed to the prevention of ill health and injury

This Policy Statement is communicated to employees and suppliers and will be made available to the public, stakeholders and any other interested party on request.

JASCON ENGINEERING W.L.L. recognizes that Health and Safety/ Environmental issues are fundamental to the contracting business and a proactive approach is required at all times. Our objective is to meet the requirements of all applicable legislation related to general contracting work and, wherever practicable, implement best practice through our certified Occupational Health and Safety Management System (OHSMS) which satisfies the requirements of OHSAS 18001 and our overall business policy and strategy.

JASCON ENGINEERING W.L.L. fully recognizes and believes that all harm is preventable and aims for zero fatality due to the operator activities carried on by us, we therefore commit to the following principles:

- Placing people to work carries a specific responsibility and accountability for safety & health and environment which will be actively demonstrated.
- Encourage all employees and suppliers to take responsibility for working in a manner that minimizes harm to the health and safety of employees, contractors, visitors and members of the public.
- Assess the level of risk from all significant health and safety hazards, in far as reasonably practicable, ensure that they are eliminated or adequately controlled.
- Provide appropriate information, systems of communication, instruction, and training in health & safety to maintain and continuously improve the competence levels of all employees.
- Ensure full compliance with applicable legal requirements related to our Health & Safety processes and corporate business strategies; these will be regarded as minimum standards of achievement.
- Our Company is committed to the prevention of all health and injury.

This Policy Statement is communicated to employees and suppliers and will be made available to the public, stakeholders and any other interested party on request.
